

JUMPING Ever After

HIRE REQUIREMENTS

So you want to know what you'll need to have ready to have our jumping castles at your next event? No problems!

Just ensure you tick all the boxes below – this will help speed up the set up process so you can start bouncing away on your favourite castle sooner ☺

- ☐ Flat even surface (grass/pavers or concrete)
- ☐ 1m clearances on all sides of the castle (dimensions can be found on our jumping castles page)
- ☐ 220v to 240v power supply (generator can be supplied at an additional cost)
- ☐ Adult supervision (we will happily arrange this if required – please contact us for a quote)
- ☐ Council's permission if the castle is to be set up at a public park/reserve
- ☐ Minimum of 1m clearances for access path to get to the set up area (please notify us if there will be any stairs or obstructions along the pathway)
- ☐ Set up area is free from any sharp objects, overhead power lines & obstructions (tree branches etc.)
